Celebrate the 50th anniversary of the Apollo 11 Moon landing with NASA's Solar System Exploration Research Virtual Institute team and learn how space rock samples contain the secrets to the birth and evolution of our solar system, planets, moons, and possibly even life! In this workshop K-12 teachers will:

- ★ Examine samples of material from the Moon, Mars, and asteroids.
- ★ Learn the science of astromaterials and its classroom applications.
- ★ Earn certification to borrow lunar and meteorite samples from Apollo missions.

Participation is limited to 12. Lunch will be available for all participants. Please sign up by **Jan. 31st.** via email to Alyssa Grace at [agrace@gemini.edu](mailto:agrace@gemini.edu)
