

We would love to have you join our 16th Anniversary of the Journey through the Universe Program

February 28 - March 6, 2020

Journey through the Universe is a national science education initiative that engages entire communities in sustained science, math and technology education, and is a celebration of exploration and the joys of learning.

Calling for Ambassadors!

Ambassadors accompany the scientists and engineers in classrooms, introducing them to the students and assisting with demonstrations and hands-on activities that are shared with students. Classroom visits will be in the Hilo/Waiakea Complex schools during the week of March 2-6, 2020.

You, as an Ambassador, help facilitate a day's classroom visit as follows:

- *Make arrangements with your assigned Astronomy Educator to meet at the school or pick up at hotel and transport to the school
- *Assist the Astronomy Educator with transport, set up and breakdown of classroom materials (if needed).
- *Introduce the Astronomy Educator and yourself to the class and help monitor their time to end on schedule.

We hope you will join us as an Ambassador for one day (or more!) Please contact: Alyssa Grace: agrace@gemini.edu 974-2531.

For more information about our Journey through the Universe program contact: Janice Harvey at jharvey@gemini.edu 974-2603. Also visit our Journey website:
