

NASA Lunar and Meteorite Sample Certification Workshop

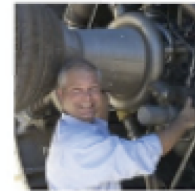

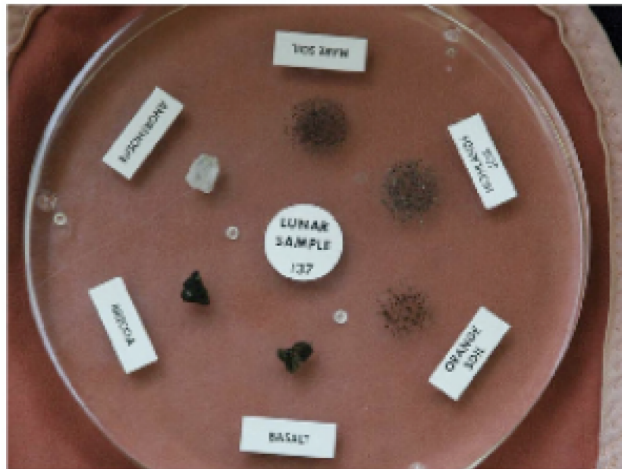

When: Saturday, February 29th, 2020
8 AM - 12 PM

Where: DKIST Science Support Center
22 Ohi'a Ku st.
Pukalani, HI 96788

Contact: Tishanna Ben

Email: tben@nso.edu

Phone: 808-645-6101

Joseph Minafra

Brian Day

Learn how space rock samples contain the secrets to the birth and evolution of our solar system, planets, moons, and possibly even life! In this workshop K-12 teachers will:

- Examine samples of material from the Moon, Mars, and asteroids.
- Learn the science of astromaterials and its classroom applications.
- Earn certification to borrow lunar and meteorite samples from Apollo missions.

Participation is free but limited to 12. Lunch will be available for all participants. Please sign up by February 21th via the registration link provided, or via direct email to Tishanna Ben at tben@nso.edu
