

**We would love to have YOU join our  
Journey through the Universe Program  
March 1- 9, 2012**

Journey through the Universe is a national science education initiative that engages entire communities in sustained science, math, and technology education, and is a celebration of exploration and the joys of learning.

**Calling Ambassadors!**

Ambassadors accompany the scientists and engineers in classrooms, introducing them to the students and assisting with demonstrations and hands-on activities shared with students. Classroom visits will be on Friday, March 2, and Monday to Thursday, March 4 - 8, 2012.

YOU, as an Ambassador, help facilitate a day's classroom visits as follows:

- Make arrangements with your assigned Astronomy Educator to meet or to carpool if appropriate
- Assist the Astronomy Educator with transport, setup and breakdown of classroom materials (if needed)
- Introduce the Astronomy Educator to the class and help monitor their time to end on schedule
- Distribute and collect a Classroom Visit Assessment Form to the teacher(s)

If you are interested in being an ambassador for one day (or more!) please contact: Andolie Marten, [amarten@gemini.edu](mailto:amarten@gemini.edu) (974-2531)

For more information about our Journey through the Universe 2011 program contact: Janice Harvey, [jharvey@gemini.edu](mailto:jharvey@gemini.edu) (974-2603)
