

## Operations Working Group

---

### Meeting 28: February 18-19, 2015

#### RECOMMENDATIONS

**Recommendation 28.1:** Stuart to remain ex-officio member of UCG for 2015 as well as AU's rep for their last year. OpsWG will need to choose a new UCG ex-officio member in Aug 2015.

**Recommendation 28.2:** For transparency, accounting accuracy, and easier comparison to other facilities, compute more meaningful oversubscription rates using real average observed time delivered to partners, as opposed to that currently advertised in the CfP which includes time never observed due to queue overfilling for practical scheduling purposes.
