Congratulations on being awarded time to observe on the Gemini Telescope. It is important that you, as Principal Investigator, relay all pertinent information required for your observing run and complete all forms requested by Gemini in order to provide the support to enable your observations to be undertaken successfully. All visiting observers will be given a mandatory operations and safety briefing prior to the start of their observing run.

Included in this documentation is information to assist in preparation of your observing run. Please remember to log on to the following site, review, acknowledge and forward required forms:
